## Plan of Care - Patient Version

## Patient:

J Smith  
1111 Xyz Drive  
Nowhere, NC 00001  
Home Phone: (704)111-2222  
Work Phone: (704)111-1222  
eMail: jsmith@nowhere.com  
DOS: 01/01/87  
SSN: 100-10-1000

Your physician has suggested you have a diagnostic evaluation for Gastroesophageal Reflux Disease. The evaluation will consist of several procedures scheduled on different days. Your schedule of tests is listed below with the date, time, and place of each procedure. Please call the nurse coordinator if you have any questions about this information along the way.

Thank you for allowing us to participate in your healthcare!

---

**Pre-Testing Office Visit**

Date of Procedure:	11/02/2001
Time of Procedure:	1:30AM
Arrival time for patient:	1:30AM
Place of Procedure:	Doctor's Office 1701 Sunset Avenue Suite 401 Rocky Mount, NC 27804
Performed by:	Chris Dengler, Dr

---

**Endoscopy**

Date of Procedure:	11/16/2001
Time of Procedure:	8:00AM
Arrival time for patient:	7:00AM
Place of Procedure:	Nash Day Hospital-Endoscopy Suite 2420 Curtis Ellis Drive Rocky Mount, NC Beside Nash General Hospital
Performed by:	Robert Scheilenberg, Dr

FIG. 13A.

10027073.122001

92A

Have nothing to eat or drink after midnight the night prior to the procedure.

This is the procedure that allows visualization of the esophagus and the stomach with a small flexible scope which is passed through the mouth.

You will be given a sedative to help you relax during this procedure. For this reason you must have someone to drive you home after the procedure.

Dentures or partial plates are removed before the procedure.

---

### Esophageal Manometry

Date of Procedure: 11/19/2001  
Time of Procedure: 10:00AM  
Arrival time for patient: 9:45AM  
Place of Procedure: Heartburn Center  
Performed by: Nurse

This is the procedure that measures the pressures of the esophagus or swallowing tube. It will be performed by the nurse coordinator at the heartburn treatment center.

Have nothing to eat or drink after for six hours prior to the procedure.

Wear comfortable clothes with a button down shirt.

You may resume regular diet and activity following the procedure.

---

### 24 Hour Ambulatory pH Monitoring

Date of Procedure: 11/19/2001  
Time of Procedure: 10:00AM  
Arrival time for patient: 9:45AM  
Place of Procedure: Heartburn Center  
Performed by: Nurse

The priority instruction is to stop taking your GERD medications one week prior to this procedure. You may take topical over the counter preparations such as Maalox, Mylanta, Tums, Rolaids. DO NOT TAKE PEPICID, TAGAMET, PRILOSEC, PREVACID, PROTONIX, ACIPHEX, OR NEXIUM FOR ONE WEEK PRIOR TO THE PROCEDURE.

Wear comfortable clothing for the procedure.

Do not eat or drink for six hours prior to the procedure.

This is the procedure that records the acid exposure to the esophagus in a 24 hour

A report on the tests your patient has undergone with the Heartburn Treatment Center is listed below for your information. If you have any questions or concerns please call the nurse coordinator Anita Odom at (252)972-3393.

This brief summary is provided solely as a convenience to you. If you are the treating physician, this summary should in no way and under no circumstances substitute for your thorough review of the individual test reports summarized herein. You alone remain legally and ethically responsible for the care of your patients.

<b>Endoscopy</b> 07/05/2001 8:00AM Performed by: Robert Schellenberg, Dr	Grade I(mild),(single erosion) esophagitis was seen on endoscopy. No evidence of Barretts esophagus was seen. Biopsies were not taken. The hiatal hernia was estimated to be 2-5cm in size.
<b>Esophageal Manometry</b> 07/10/2001 8:00AM Performed by: Nurse	Location of the upper border of the Lower Esophageal Sphincter (cm from nasas) less than 35 cm. Average resting LES pressure less than 10 mmHg. Length of LES-1cm LES relaxation percentage on wet swallows 80-90%. The esophageal body contractions were generally peristaltic in character. The overall diagnostic impression is Normal.
